

NGO COMMITTEE ON FINANCING FOR DEVELOPMENT

Established in 2003, shortly after the Monterrey Consensus, the NGO Committee on FfD advocates for a global economy that is environmentally and socially sustainable, ethical, and people-centered. We call for:

- Putting people's rights and the needs of the planet at the heart of all global economic efforts;
- Recognizing that financing for sustainable development is a moral as well as an economic issue;
- Building political will for reallocation of resources to address sustainable development priorities;
- Equal representation and voice of developing countries at all economic forums;
- UN-led reform of international financial institutions and systems;
- A human rights framework governing international financing, taxing, trade, and business;
- Participation, monitoring, transparency, and accountability for all stakeholders.
